

FCC,

Please do not implement any proposal that would lessen
Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has improved our time at home.
The effectiveness of Indiana's law has been such that we used to receive about
six to ten calls per week; now we only receive one
about every two weeks.

Our personal view about the importance of Indiana's law is that it
increases the amount of uninterrupted work time at home.

Thank you,
Mr. and Mrs. Matthew J. McDermott
